I don't really have an answer for you, but I'm sure this is a problem that other people have as well. I think the game needs to be made less serious because people will not want to spend money on fake money (robux) if they know there's no real value behind those items they purchased with their fake money. The best way to accomplish this would be to make hats, shirts, etcetera for gamers who spend more than a certain amount of money.

Rated 4 out of 5 by Anonymous from Great Game, but Expensive ROBLOX is one of the best games I've played on my computer, but it is very expensive. It's not only expensive, but it's time consuming to get points for what you want in the game. Overall, I would recommend this game to people who like games that involve creativity and imagination in a game. Rated 5 out of 5 by Anonymous from Best Game Ever ROBLOX is one of the best games ever. I think that everyone should play it, it's great for all ages!

Roblox offers a tremendous amount of games and features which, once you have played, can easily be overwhelming. If this is the case for you, keep it simple when creating your own roblox games. Choose a theme that is highly in demand right now or create something compatible with the standard ones. A simple game project can be as easy as tapping and holding three fingers on the screen to throw balls of fire at your opponents' faces. Do not worry if no one plays your game, since this will happen when the topic becomes old news among other players.

In 2015, a study concluded that children under 15 years old had made up 38% of Roblox purchases, which was far less than the games with similar genres such as "Minecraft" or "Grand Theft Auto". However, the study also concluded that players over 15 years old had made up 56% of Roblox purchases. This is because they have more money and influence. In addition, the study reported that Roblox is being used for a variety of purposes such as learning about engineering and architecture.

Mobile App: On September 5th, 2018, ROBLOX released their first official mobile app for iOS and Android devices. The app has various features such as the ability to customize avatars, the ability to chat with other Robloxians, even add people as friends. It also allows users to play games that they can't play on their website.
