The American Federation of Television and Radio Artists (AFTRA) has demanded that Roblox includes their members. The union stated that they also want their actors to get compensation for their work. The union has also said that they have been talking with Roblox for more than a year before singling out the company for bad housekeeping by refusing to pay royalties and residuals while claiming to "be building careers".

Hacking Roblox is a form of hacking. Hacking in general, when not applied maliciously, is the process of enabling access to computer systems that would otherwise be unavailable or difficult to access.

In 2012 the company sponsored an event at the Children's Museum of Pittsburgh to raise money for charity (Watsi). This was called Roblox Builders Club: Multiplayer Tournament which raised over \$6,000 for charity water.

In 2014, ROBLOX took the block system offline due to an exploit that allowed users to convert infinite amounts of blocks into real currency. They eventually brought it back online after fixing the exploit.

Roblox has also been criticized for not having realistic physics. Roblox used to have a physics engine, but it was removed in 2015. The reason for this was because ROBLOX wanted to focus on improving their building features instead.[60] However, they later explained that this removal was only temporary and they would bring back the physics again in the near future.[61]
