ROBLOX was launched on March 9, 2007. ROBLOX later went under the name "Genesis". ROBLOX officially changed its name to ROBLOX on November 3, 2007. On March 15, 2009, ROBLOX's new style was made official. Then on March 22, 2009, a new logo was released for the first time since 2007. On August 7th, 2010 it went back to its original look. On February 23rd 2011 ROBLOX announced the launch of Minecraft Clone called Blockland. Then on May 19, 2011 ROBLOX announced it had launched a new engine. On December 18, 2011 ROBLOX announces a new game called Roblox City Builder.

ROBLOX also shares user information such as email addresses with any business partners that are directly involved in the provision of ROBLOX services, such as developers and advertisers. ROBLOX reserves the right to send or share non-personal information with third parties in order to assist them in providing accurate behavioural advertising and targeting.

Roblox provides wireless headsets in the form of headphones and microphones. This enables players to communicate through the game, chat with other Roblox users, and play games with other players. In some online games, players are able to play "mini-games" such as "Horseball" that involve shooting a ball across the screen to attack another player. However, in Roblox, mini-games give physical feedback from hitting objects in the game world; for example, when they jump off a ledge in an abandoned mine shaft.

Roblox allows its playerbase to make money through in-game ads. All the buttons can be clicked for additional clicks. The game also uses an in-game currency called ROBUX (Robotix) and replaces it with R\$ (Robux). There are many ways to earn these ROBUX, but the most efficient way is through the sale of items on the game marketplace or through microtransactions. However, your account will be flagged if you decide to do so.

On May 22, 2018, ROBLOX launched Project Bloks, an app for iOS and Android devices that is aimed towards children 2-12 years old. The app allows users to build various blocks available in the game. Some blocks are also available as virtual items for purchase. The revenue earned from these items is then distributed among the app developers on ROBLOX. The game was first released in Canada, and now has been released in the United States.
