The community is toxic in many ways, Robloxian's have made characters with inappropriate content such as swearing in their usernames or wearing inappropriate clothing that make it look like they are roleplaying as an adult even though they shouldn't be. Although there are ROBLOX moderators, there should be more since some of them don't join Roblox or just don't care about some of the problems that some people have on Roblox.

Roblox is a wonderful platform for any developer to start learning how to code in the real world. Since it's relatively easy to use, it will allow you to create games and apps that will also be easy to use. All you have to do is choose your theme, write a few lines of code and test it out. If people like your app, they will play it and provide you with their feedback so that you can improve your project. Roblox has many features which include multiplayer servers, chat rooms, game rooms and the ability for developers to sell their games or items to other players if they wish. If you are interested in trying out programming, then Roblox would be a great place to start. You will not only have fun but you will learn many things. And who knows, one day your game could be the next hottest thing on the market!

The Chat Room is an area where players can talk or text either with themselves or with other players. The chatroom is separated into different categories, depending on what players are doing. Normal chat rooms for most players will probably contain users asking different questions about the game as well as people chatting about their creations. Other chatrooms include a room where people can indicate whether they want someone to play their games or put them up for sale and a "Celebrity Chat" that allows known celebrities to visit and hang out in the chatroom.

They say content is king, and this statement could not be more accurate for Roblox. Why? Because on Roblox, players are able to make their own games within the game itself! These games are called "games" or "sims," and they can be accessed from a GUI called "The Catalog." There are tons of free games that players have created and uploaded for others to play. In order to play these games, you have to purchase them using free robux. You can also make your own game and make it either free for others to play or charge for everyone else to play.

On August 21st 2018, ROBLOX removed the ability to sell hats and shirts on their site. This came after a report that showed a lot of users were scamming each other out of money. The system was redesigned and the hats cannot be re-sold.[45][46]
