During the time when Roblox was first being developed (2004–2007), there were a small number of games created that were designed to troll or harass other user accounts on the game platform. Trolls could take advantage of the limited moderation tools and exploit loopholes in the "Terms of Service" and "Community Guidelines".

There are some games that can give you more Robux randomly. But the chances of a good game giving you much more than what you're supposed to receive are very slim because the online game developers save these gifts for popular games.

Rated 4 out of 5 by Anonymous from Good for kids My son loves this game! It helps him study for his tests and play with his friends. His favorite part is that the creators have set everything up so that parents can control what their children see online.

Once you have downloaded the app, then you can open it and see if there are any ads that show up. If there are a lot of ads, then I would suggest you to uninstall it and to download another app for your device. However, most of the apps that are available on Google Play Store don't have any ads so it shouldn't be a problem at all.

I have always had problems with this game and there are many other people who do too. Like the fact that you can't change your name when your in a group with a lot of people and it makes me very mad when I can't change it because I feel like I am stuck with the name that I have. This also happens when one of my friends gets on my head and they change their name to a bad word which makes me really mad because if someone else was in the group with us then they would be able to see that bad word in big letters. It also makes me mad for a different reason because I really like my name. Anyway, I hope these bugs get fixed in ROBLOX or the next update of ROBLOX.
