On December 20, 2016, a 12-year-old girl in Las Vegas named Arielle De La Rosa was banned from Roblox for what she believed was a "harassment campaign". She had created a character named Emily Roe that she used to bully another player online. The bullying campaign went on for over a year until it came to her parents' attention and they contacted Roblox about it. The harassment campaign violated the Child Online Privacy Protection Act (COPPA). Her parents encouraged her to create a character named "Emily Roe" and they hoped that this would help her get unbanned from Roblox.

Once you get enough free robux, just go back to your game account and manage it and then you will be able to buy cool items or invest in some cool weapons as well.

The 100Robux app is really easy to use, and can be used on every device even without installing Roblox. The adverts are quick and easy to use, and the free robux is a great thing to get. All I would say about the 100Robux application is that it is simple and easy to use, even if you are not good at gaming. Also when using the 100Robux app, there is no risk of your account being banned or anything because it is just a game app.

Some users have noticed that the Roblox logo is a direct parody of Microsoft's logo. The two logos are nearly identical in shape and color scheme. The only difference between the two logos is that Roblox's logo contains a "R" whereas Microsoft's does not. Another parody was made by RulaGames in 2015 called "Robux". This was a parody to show that everything on Roblox cost money.

ROBLOX is a great game, and has lots of potential, but it's not being used as a serious game developer wants it to be. You can't break out of the virtual world without spending money on the Robux currency. It's like a video game and to continue playing you need Robux, but if there is no value in the game then they don't want you to play at all.
