Once you know the IP address, visit the Minecraft Server Hosting Provider's web page and find the info about how to connect to it. You can either give them your Minecraft username and password or you can access their information directly by typing in the IP address into their website. If you are using a Bukkit or Tekkit server, then all of this should be included in their instructions for connecting. With an individual server, you may need to read through these steps again if there are any slight differences between your own personal server and the one that you are trying to connect to.",

At its release on Steam Early Access, Facepunch Studios officially stated that their vision was to release "Rust" in a finished state by December 2014. The team also described this as being accompanied by an increased focus on gameplay over graphics. However, due to technical problems with getting enough funding for "Rust" and other games they were developing (namely Garry's Mod), Facepunch was forced out of Steam Early Access in June 2015.",
