I think everybody would love it because they are free, fun and interactive with each other. It really is something you can try with all your friends right on your computer! :D My brother used to hate me playing Roblox but he eventually got used to it. I really recommend it! ^-^ It's really funny! Rated 5 out of 5 by Anonymous from Best game ever I think it is the best game because you can do whatever you want on here and have lots of friends.

I think that Roblox is a great way to get people to communicate with others online because it is very fun and social. It can help you meet new friends and connect with others in many different ways. It can be a great way for people to learn how to communicate with others in a way that they prefer, especially online. This game can give people a lot of benefits because it is very fun, and you don't have to pay money in order to play.

This game has helped me develop social skills because I was able use voice chat or text chat to communicate with other players and also the advantages of communication in real life. I will continue playing this game because it is fun and I'm able to make lots of friends and have a great time doing it.

On October 10, 2018, Roblox announced that they will be selling 49% of their ownership stake to Tencent Holdings for \$100 million. The deal is subject to approval by the Roblox board of directors and Tencent before it goes into effect. The transaction will be funded from Roblox's 'new business' funds, which aim to expand the company's offerings including VR, augmented reality and mobile.

One of ROBLOX's main rivals is Tencent, a Chinese company. The two companies even share employees and developers, including the current admin. ROBLOX as well as Tencent are often compared to each other due to their similarities.
