Minecraft Servers are generally run on either a physical server or a virtual private server (VPS). A physical server hosted by the user and rented from third-party companies, ISPs, universities etc. or free services like NFOservers.com, Adverline.pl and VirtualRack.co.uk which are VPS's seems to be the most common way to host your Minecraft Server. A VPS or physical server is better for most, since it is more stable and customizable and can be set up to run on the same machine as the player's computer allowing for an instant jump in to a server when desired.",
