ROBLOX released its first Android app on October 13, 2013. The app is currently available in English and has over 2 million downloads on Google Play. It was launched for iOS on December 17, 2014. The application allows players to create games and play previously published ones, but does not allow for publishing of user made items or models. On May 30, 2017 ROBLOX released a new version of its app called Ava (ROBLOX's Mobile Application). See above section for more details.

In Roblox, players can create an avatar in whatever shape, form, or color they wish (as long as it's not offensive). But before they can do so, they must choose from a variety of different body parts, heads, legs, arms, etc. There are also many different hairstyles to choose from. There is a large variety of clothing options to choose from, each with its own effect.

ROBLOX uses cookies, a small piece of data containing a unique identification number that is sent to the user's browser from the web server and stored on the user's computer hard drive. By storing on the hard drive, ROBLOX is able to recall user preferences and settings, such as game scores or user names. ROBLOX uses cookies to monitor how users use the platform as well as how effective its ads are at converting users into paying customers.[3]

Anthem: On June 15th, 2018, ROBLOX announced a new game called "Anthem". It was a FPS which was heavily criticized for violating many of the company's policies. The game eventually received negative reviews from users who claimed it was simply an unfinished product. The company also ended up making an apology on their website.
