I just wish we could have stuff like spoons on roblox and we could make furniture like tables and chairs or a cabinet and some chairs for our avatar. Also I want to be able to make my own game make it like Roblox survival! Please please please update roblox so that we can have stuff like spoons and a table and chairs for our avatar thank you. When there is an update that takes away all the content from one of the games I played, it's sad because I enjoyed it... And other people enjoyed it too.

There were a lot of concerns about Robux before the update that made it easier for players to get it, but some people still believe that Robux is manipulative and favors the developers. In the "review" section, people criticize the developers for doing what they wanted to do and not caring about what people think.

On February 29th 2018 there was a large DDOS attack on roblox which left most of the games not loading and many users getting kicked from games due to it. On March 1st 2018 the company announced that a hacker had gained access into their database and multiple users personal information was leaked mainly password, username and email addresses.

Roblox allows its players to promote their games on other websites such as Fiverr and UpWork. American citizens have to file an extension if their promoted games are relevant to them, but the rest of the world does not.

Roblox has been criticized for the release of their "2018 Summer Update" which featured new clothing items and accessories. The update was released on August 28, 2018, and it caused some of these items to be very hard to find. This resulted in many of Roblox's users spending a lot of money on the platform in order to obtain these new items.
