Due to its age, ROBLOX games often contain bugs and glitches; it can be difficult to get rid of these glitches. Some users have even taken to modifying the game engine to bypass some of these bugs, as well as creating their own games and uploading them to Roblox without permission.

Since its launch, Roblox has had many updates. These updates affect the gameplay and/or user experience at all levels of the game. Some updates, such as "Roblox," have been launched by the company itself. Others have been launched by third-party developers or players in the game.

ROBLOX has also been criticised for being very difficult to use and has many bugs within the site interface itself, problems which seem to go unresolved by the development team despite repeated complaints over a number of years. Although the website's interface is not difficult to use, it has become more complex over the years with features such as video editing with a dedicated program and large amounts of unnecessary superfluous features. Some of the features include: UIs for uploading and viewing custom models, importing music, applications, and sounds; importing sounds from WAV files; creating galleries; creating art sheets; creating an unlimited amount of variations for models by changing their scale and pose; adding animations to models (e.g. walking); creating global themes which change every time you go into a game or lobby; creating global music tracks in . ROBLOX's interface has also become extremely frustrating, with a lot of features being inaccessible and hidden because of the aforementioned complexity.

On May 21, 2010, ROBLOX launched its second virtual item, the Accessory Shop. This shop is available only to ROBLOX VIP members and is only accessible by those with a valid VIP membership code. The Accessory Shop was later renamed to the Vault in 2011 before completely changing its name to the Catalog in 2016 combined with the construction of the Warehouse Store. It was renamed again on December 20, 2018 as ROBLOX's new virtual store where you can get things like clothing and accessories for your Avatar with other items like hats and shirts which will be available to other players at the same time for legit ways such as purchase or win from contests or similar events.

There are some games that can give you more Robux randomly. But the chances of a good game giving you much more than what you're supposed to receive are very slim because the online game developers save these gifts for popular games.
