Five years later... by Phil2912 on 2017/11/28 22:56 I was looking up this game to see if it still existed and that's when I found my love for the game again. It has been five years since the last time I played this, and I definitely missed the challenge that made me play again and again. Graphics are still good, gameplay still needs minor updates (minor looks like), but overall it's still a great game!! Before you write a bad review, check out your options for the game first. There are a lot of great games out there that you can play.",

The game was launched on the Google play store in August 2012. In December 2015 Coin Master was removed from the play store for unknown reasons but it continues to remain available on its own website. Moon Active announced in October 2016 that "Coin Master" was shutting down. However, in 2018, Moon Active released version 1.1 for iOS devices which contained support for 3D touch devices and some other bug fixes. They also announced another new game called Coin Master "Dig Deep" which is similar to the original Coin Master but has added features such as a virtual currency system and features much more content than the original game.",

"If you have been looking for the best way to have fun with coin master free spins and unlimited coins, Coin Master Puss in Boots Hack MOD APK is one of the best tools available on the internet. Download it now to enjoy unlimited amount of coins and free spins that will last for hours." This is one of the best games ever. The graphics are great, the soundtrack is good and I really like how it uses my location to make the levels more interesting. The only problem with this game is that although, it's a free app...it's not actually. You can't get far without having to spend a lot of your real money on extra lives and coins. Even though you can earn free lives by watching videos or playing other games, it's still not enough unless you buy some more which cost actual money. That's why it's not really free, but it was a great game while I could play it. "Greatest game ever! I love this game because you can play with your friends in any place and this is a best game." "I really loved this game! It is simple and so much fun to play. My favorite part about the game is making alliances with other players and working together to defeat bosses. But there are some issues with the app... right now, I am stuck inside of a picture puzzle that will not let me continue. I have deleted and reloaded the app many times but nothing has helped. If I can't get out of the puzzle, I will have to delete the game. Also, many other players have told me that they wish there were a way to get better armor without having to pay real money. Overall though, this is still one of my favorite games and I don't want to delete it." But you did... so what do you do? Delete it. This is a game that has enormous potential. However, when your goal is to collect spins and the more you play, the less spins you get...there's a problem. Without paying real money, it takes forever to level up. If the developers would get rid of the need for real money to enjoy this game, they would make a lot more fans and earn more of that currency than they already are... real money. If I was developing this game, I'd make it fun for those who aren't going to pay for extra lives or coins and find ways to build loyalty with your fans instead of constantly making them feel like a cash cow walking into a slaughterhouse. This game has so much potential, but in its current state I can only say this about the game... "It had promise."",

Too many ads by Rachael Bajo on 2018/04/12 16:31 This game is very fun and I will have to admit that the game play is very well executed, but the amount of ads is way too much and you guys are not helping the problem at all. The ads do not get removed from your screen and you have to close them out just to use your items or do something. They also sometimes pop up when I don't want them to like before I open a shop. It is very annoying because you can't even go back without closing it out which ruins my plan every time. Another thing is that you have to wait for so long. You have to wait hours to even complete something. I know this is supposed to be some kind of strategy game but all it really does is frustrate the players because they can't even move forward because they had a bad streak of luck.",
