On July 26, 2018 (6:10 PM), ROBLOX released a new game called "Roblox Experiment" for mobile. A trailer for the game was released on July 25 and made it's official release on July 26. The game is intended to be used for experimentation and research on mobile devices, as well as a temporary training tool for developers that assist in making future Roblox games/apps/experiments.

On December 20, 2016, a 12-year-old girl in Las Vegas named Arielle De La Rosa was banned from Roblox for what she believed was a "harassment campaign". She had created a character named Emily Roe that she used to bully another player online. The bullying campaign went on for over a year until it came to her parents' attention and they contacted Roblox about it. The harassment campaign violated the Child Online Privacy Protection Act (COPPA). Her parents encouraged her to create a character named "Emily Roe" and they hoped that this would help her get unbanned from Roblox.

Other things that need to be changed or fixed: Change the sound of the hook it is not loud enough and sometimes you can't hear it. So you just have to guess where the enemy is. Make an AMA thing just like Reddit but for developers so we can ask them questions and they will answer them. This will give players some more insight on why stuff isn't in game yet or why stuff is in game. It will also give players a chance to be more involved with the company and make them feel like they are actually doing something. This would also help with bug reports and glitches because then we could ask questions about what's happening and how to fix it.

Free Robux Codes Reddit (Most Visited) Reddit is extremely spammy and not recommended for obtaining free Robux codes. I've recently seen many people get swindled into downloading various viruses/spyware/malware from these comments and they're not safe. In order to stay safe, use the Free Robux Code list above or simply ask permission from the owner of the site before using their codes.
