This is not an open world game, each world contains its own mini-map that shows the player where he or she can go and where they cannot go. No one will know you're there if you stay hidden. This means that if you don't want someone to find something in your inventory, you have a location to hide it.

On November 10, 2021, ROBLOX launched an invite-only beta for the virtual currency Robux. It was released to a small fraction of its user base whose accounts had been verified by Robotcrab, Inc. The currency was named after ROBLOX's mascot. All games and item purchases could only be made with Robux. The overall value of Robux is dependent on ROBUX exchange rates in the game itself; however, all players are guaranteed to receive the same amount of Robux (at the same time) regardless of their financial situation or how they choose to use them.

I really like Roblox because I get to make friends with other users on the Internet that are my age and play games with me. Another thing I like about it is that you can play different games and see which ones you like, so it's very fun to me. I also think that the game has helped me develop a lot of social skills because you can talk to your friends using voice chat or text chat. You can tell them how you're feeling, what's wrong, etc. It's a game where there are a lot of different people from all around the world and they all have their own story. Another reason why I love the game is that you can really make new friends and you can play with them offline.
