Loved this game! by s_only_me on 2018/03/31 15:13 This app was really fun and addictive. I've downloaded many apps but this was my favorite!! It's like a mini version of scrabble or tetris that is easy to finish, so I wasn't always too frustrated when I couldn't get a word right or it didn't fit in the puzzle correctly. I really liked the fact that I could earn coins and buy different game modes and backgrounds. I would definitely recommend this app ,

There are even leaderboards where we can view other players' statistics. Simply start a new game, then enter your name, and your stats will be added to the online leaderboard. Your score will consist of the number of chains, the longest chain number, how many times you've ended a chain by flipping heads or tails, and how many flips you've completed. There are plenty of achievements to unlock and challenges to prove that you're the best!",

Another version of Coin Master was also created by Mojang in 2015, which is available to players free of charge via Minecraft Realms. This version primarily includes the same gameplay aspects seen in the original (but with some graphical upgrades, and 3D style). The game uses texture packs to resemble the look of the original versions.",

The first 1000 people who pre-ordered the original "Coins & Curses" from United Pixelworkers received special recognition in-game within "Coins & Curses 2". Coins & Curses 2 is currently available on mobile applications and can be played directly in any compatible browser or downloaded through an app for PC/Mac devices and tablets. The game is slated for release on Steam as well as the upcoming Nintendo Switch console sometime in 2019.",

On December 27, 2017, Moon Active released Coin Master: Pinocchio "(Kasegi 4: Geppetto ni Narou)" for iOS as a paid app (it is not available on Android). This "Coin Master" title features an updated version of the popular video game "Pinocchio". The game was released in Japan initially as part of Moon Active's "Coin Masters" series. However, this version of the game was never released outside Japan. This version contains microtransactions which can be removed by paying \$4.99 for an ad-free version. The user review for Coin Master: Pinocchio is composed of 4.5 out of 5 stars (out of 1 vote) from 1 user, with a user rating of 5 out of 5 stars (out of 1 vote).",
