One of the reasons why free robux users are falling victim of hacking and account deletion is because they let their friends know that they have free robux promo codes. They share these codes and often forget the fact that they should never ever share any information that could possibly help someone hack or delete your Roblox account. If you feel like you would like to tell a friend about this, but just do it privately, just make sure to use some sort of security when checking the inbox for messages. You should also make sure that you do not use the same username or password on any other website or accounts.

On September 13, 2016, ROBLOX launched its tenth birthday party along with an event called BLOXtober. The purpose of this annual event is to celebrate ROBLOX's birthday and give players badges for completing The Admin's tasks every day until October 15th. The badge is called BLOXtagger and can be worn on your profile for the year. The tasks were also modified to let you earn the badges by simply logging in every day. If you do not already have a badge, then you will gain one once you have logged in every day for two days consecutively. At the end of BLOXtober, ROBLOX held a contest called RobloxtheRave, where people were given a chance to win a large sum of money in cash by answering trivia questions that were asked throughout October 11th-13th.

Roblox has been used by various organizations for training a variety of topics. The United States Army uses Roblox to train teenage soldiers that have joined their Cyber Patriot Program. The team's mission is to create, maintain, and operate constructive team-based activities online via the game "Roblox". Outside of that, Roblox has been used in courses for mathematics, English, science, and history.

Lately, many of the people I know have been playing roblox games. There are a few different types of games you can play on roblox; however, the most popular type of game is called Robloxian Life (RL). In RL, you can create your own avatar with different types of clothing and hair to customize it. You then pick a place for your person to live and earn money to buy more food and other items.

In July 2012, ROBLOX released a list of their top 100 games with the most concurrent players at any one time. The list features a variety of games such as "Rage Place", "Create the Universe 2", and "Survival Games: Mine". The game with the highest number of concurrent players at the time was "Mineblox", which had over 10,000 players on it at once.
