Looking back at my own experience with Minecraft, it's so easy to see why people were so obsessed with it. The game was all about survival. It was about building a new life out of nothing. Things that would make you successful weren't free; they required you to work hard for them. But they were worth the wait, because it would mean you'd gather more items over time, and then you could make your house bigger or better fortified. The game was about connecting with your friends, and making sure that they were safe and able to live their own lives in the Minecraft world as well.

According to a report by SuperData Research, Roblox had an estimated 5.7 million monthly active users in 2018. The report states that their statistics were based on the call records of around 1 million Android users who are under 13 years old. In their report, the company estimated that 6% of their users were under 12 years old. The reported monthly active users also included those who played Roblox on a daily basis. Their estimate was 14% and they based this on the number of days that players spend playing Roblox on any day. In addition, the report also stated that 32% of their players were in North America and 29% were in Europe.

On April 6, 2015, the company launched a virtual reality project called "ROBLOX VR". It allows users to play in the same virtual world and see each other's avatars. On March 22, 2017 ROBLOX released a new version of its app called Ava (ROBLOX's Mobile Application). See above section for more details.

On March 13th, 2018 the ROBLOX website was temporarily shut down due to multiple exploits on the site. With over 200 million players this has become one of the biggest DDOS attacks in history. The site came back online about 30 minutes later.

The acquisition is part of a strategy by RoLabX to become a global gaming powerhouse with operations in China, with over 50% of revenues coming from China alone by 2021. The deal also confirmed that Tencent will continue to operate as the chief customer and user experience partner for ROBLOX. In late 2015, ROBLOX announced that they would be running advertisements on their site. Unfortunately, these advertisements were run-of-the-mill ads and did not produce any revenue for the company itself but also had a negative impact on their community as they were being flooded with ads featuring nudity, extreme gore, racism and other inappropriate content. In addition to this, many games would feature these ads despite not making any money from them themselves. ROBLOX was banned from Xbox Live in 2015 due to the game running advertisements which violated Microsoft's Terms of Service by being inappropriate for children. The ads contained anime-style nudity and extreme gore. This was later changed however when Roblox reached an agreement with Xbox Live regarding the matter between them.
