The community is somewhat mature. As far as social media goes, I do not personally think that Roblox holds much of a candle in terms of maturity when compared to the likes of Twitter or Facebook - but it certainly does not have the childish undertone that you would find on other sites such as Instagram or Snapchat either. It has a decent kid-friendly community that is mostly neutral.

On November 7, 2017, Roblox released their first real let's play channel, but it only lasted a couple of months before Roblox cancelled its plans for let's play channels. It stars RandomPlayer as he plays a wide variety of games on ROBLOX, including many popular games such as Angry Birds and Zombieland.

In February 2014, the popular user "meepcity" was hacked by unknown users who had created a character as an avatar for the hacker group "Lizard Squad". The avatar's name was changed to "pedobear", an image widely associated with child pornography. Several other users' accounts were also compromised by the group's activities.

Some of the most popular games on Roblox are roleplaying games, which allow players to create their own character and explore a world with other characters created by other players. These games are incredibly fun and addicting, especially if you want an alternate form of social media that is not just photo posting based.
