On August 1, 2016 the game was removed from the Apple App Store. The game's developer said that "Coin Master" was being re-released on Apple devices in 2017 but there has been no further mention of this from Moon Active as of November 2018.",

It's okay by Girl.xox on 2015/12/28 20:47 This game is extremely addicting and fun. It's just too bad that there are ads all over the place, along with the fact that you can only play 1 game at a time instead of being able to play multiple games concurrently. Way too many ads and it takes too long for me to get through each one. I'd give it a five star rating if it didn't have so many annoying ads and you could play more than 1 at a time.",

Five "card packs" were released after completion of level 3105 on March 16, 2018 available exclusively through United Pixelworkers' Facebook page. The packs are currently only available on iOS devices, however they will be released on Android after the PC release of the game.",

On September 28, 2018, Moon Active released Coin Master: Puss in Boots "(Kasegi 2: Bukimi no Tane)" for Android as a free app (it is not available on iOS). This "Coin Master" title features an updated version of the popular video game "Puss in Boots". The game was released in Japan initially as part of Moon Active's "Coin Masters" series. However, this version of the game was never released outside Japan. This version contains microtransactions which can be removed by paying \$4.99 for an ad-free version. The user review for Coin Master: Puss in Boots is composed of 3.0 out of 5 stars (out of 1 vote) from 1 user, with a user rating of 4.0 out of 5 stars (out of 1 vote).",

The game's objective revolves around collecting coin cards for use in quests with matches to earn rewards and spin a slot machine that can lead to bonus levels, cards, or extra items in the form of coins or boosts.",
