On July 26, 2018 (6:10 PM), ROBLOX released a new game called "Roblox Experiment" for mobile. A trailer for the game was released on July 25 and made it's official release on July 26. The game is intended to be used for experimentation and research on mobile devices, as well as a temporary training tool for developers that assist in making future Roblox games/apps/experiments.

There are a number of settings in your account that can be changed, including your e-mail address, password, birthday, username, and the overall look of your account. You can also add a picture or video to your profile. However, you cannot change the color of your name (unless you join up for a Builders Club subscription), nor the overall color scheme. ROBLOX offers ten different color schemes that players can choose from; these include Gold, Green, Blue, Black & Red and many more. Due to the nature of ROBLOX's game engine, players need to be able to manipulate various graphical elements by using the in-game tools provided by ROBLOX. These tools include resizing, rotating, and moving various objects and creating texture maps. It can be used in the creation of 3D games, but the game must be made using a 2D game maker such as Game Maker or Flash itself.

Roblox allows its players to participate in in-game events which are typically organized by the administrators of the game. These events may include special tasks for Robloxians or extra items that can be obtained during the events. Players who take part in these events may gain access to different amounts of ROBUX depending on their performance.
