On July 29, 2016 (9:00 AM), ROBLOX released a new website design. This redesign was created in order to make the main site easier to navigate and find what they wanted at a faster pace. There are many new features that make the site easier to manage and update. There are many new pages and features added. The new page layout is designed with ease of use in mind.

In January 2016, the Roblox developers said they will be working with an external security firm to enforce a set of rules, and would only support third-party software that is approved by their partners.

Although many games on ROBLOX are free, some with "premium" features, others require money for certain features. One example of this is when the players can buy exclusive items that are only available for purchase through Builders Club membership.[53] Before March 2010, premium features were known as paid-for items. As of March 2010, all premium items in a game are referred to as "Builders Club Premium."

If you have been looking for a way to hack roblox without having to spend money then the best idea is to use this hack tool. It is free, and there are no catches! You can be sure that you will not get banned in the game for using these cheats.

On November 2nd, 2018, ROBLOX announced that the company is looking into implementing state-of-the-art anti-cheat technology. This was made to reduce the chances of "boters" putting random objects in games that don't belong there or making designs that look like they can be through a video editor. The company also stated that if there are any issues with their anti-cheat software, they will let everyone know as soon as possible.[24]
