I have attempted to make a list of all the free Roblox code sites and codes I know of. You should be wary when using these codes, as some do not work anymore or may lead to viruses/malware on your computer. I've also made a list of which sites are safe and which sites are unsafe for you to visit. Please be cautious and do not enter any codes you have found in a comment on Youtube, on Reddit, or anywhere else. Always make sure to read the comments of the videos and follow all instructions before using them.

The Free Robux promo codes for ROBLOX are usually based on a series of random strings of characters that have been created by other website users and developers that created them. These people have found out how to do this because they can easily get free robux after it has been added onto their accounts. This is done once the various codes that are being generated have been entered onto the account.

Roblox cannot afford to go down the path of Farmville. They need to remain an open source program for everyone, where people can come together as equals and play fun games without being forced to pay money to be able to continue having fun within their virtual world. People who think they can't afford to pay should just get used to not having an ROBLOX account because that's what's happening. People are being kicked off the server by player banning.

Chris Hutchins, the Vice President of Developer Relations at Roblox, has said that Roblox is hiring. The current number of users that have worked for Roblox is 17,000 and they hire about 400 employees each year.

The product has received various negative comments on their forums due to the fact that they had broken features, it is unclear why they released the product before fixing all the bugs.
