ROBLOX is the first game that was able to make an international monetary currency (Robux) that can be used for buying in-game items. [116]
The next game to have a monetary currency was Habbo Hotel where they introduced Habbo Coins which are used for buying furniture, clothing, and accessories. [117]

As you can see from the image shown above, there are a lot of different options that you can use in order to generate free robux for roblox. Over the years, ROBLOX has used advertising to generate revenue for their company, which they generate through in-game purchases (microtransactions) or advertisements (which can be annoying for the players). In addition to this, they also generate revenue through selling virtual items (like the aforementioned Builders Club and ROBLOX Credit). The company has also released several games like their top grossing game "Build a Buddy". ROBLOX has been criticized for its lack of funding from advertisers as well as allowing other companies to make games on ROBLOX. The company has been criticized for their children friendly ads which are designed to be easily visible by children but are very inappropriate for them which is seen as a breach of the COPPA (Children's Online Privacy Protection Act) and their end user license agreement, although ROBLOX has since changed its policy. The company also uses an "Ads on the Web" program where they can serve certain types of ads depending upon a player's age and location.

On May 9th, 2015 ROBLOX changed their logo again which became more square and flat then their old one. Their previous version was rounded more than their current version. On November 5th, 2016, ROBLOX released yet another logo which is now a modified version of the 2010 logo. The new logo has a more pixelated layout and a different shade of blue.
