On January 23rd 2018, ROBLOX announced that they would be closing down their Minecraft marketplace. The marketplace would close on February 28th 2018. In February 2018, ROBLOX began to create more games for mobile devices.[78]

In July 2018, Roblox had allegedly banned several high-profile creators due to the fact they made violent games. Although Roblox claims users were banned "due to improper behaviour" nothing has been proven yet. The situation is occurring in many forums and websites. In July 2018, ROBLOX put out a statement saying that they did not ban any creators, but instead were involved in a legal dispute with the people who claimed to have been banned.[82] They later said that anyone who was banned for making offensive content was "part of an organized effort by bad actors to scam our users. We have no tolerance for this behavior and we're doing everything we can to protect our community." [83]

On January 19th, 2018, ROBLOX announced that they would be releasing a feature called "ROBLOX Studio Preview". This allows users who have purchased a "Full Studio" to test it before buying it. They will also be able to provide feedback.[85]

The community is toxic in many ways, Robloxian's have made characters with inappropriate content such as swearing in their usernames or wearing inappropriate clothing that make it look like they are roleplaying as an adult even though they shouldn't be. Although there are ROBLOX moderators, there should be more since some of them don't join Roblox or just don't care about some of the problems that some people have on Roblox.

The free robux script is a tool designed to assist the Facebook user with automation. The free robux script allows people to automate their daily routine of posting on Facebook. The free robux script works by automating an individual's routine tasks, which are used for commenting, rating posts, and sharing news articles among others
