In response to these criticism, the ROBLOX website says that "Roblox does not condone the use of unauthorized software programs in games." However, this is not always the case as all users have full access to all of their content. In addition, if a publisher chooses to remove a particular asset from their game they cannot be held accountable for it."

The more popular games have prices ranging from \$10-\$25 and some people think that it is way too expensive to pay for a game, especially if it doesn't require any physical hardware or extra equipment. Some also specify that when they see a custom hat being sold for \$25 and think it's ridiculous because hats aren't even digital assets and are an accessory.

On August 31, 2017, there was a large lawsuit that ROBLOX was involved in. The user "Bella Thorne" had an unverified account that was deleted by ROBLOX due to copyright claims, although these claims were proven false. Then, the account was deleted and the user made a video about how her account got taken down, where she shows screen caps of some users who hate her on the website, as well as saying several bad words such as foul language and racial slurs.

Another disadvantage is that whenever a user updates their account, they are required to update the free robux script as well. Since it is hard for you to keep track of your own updates, you will need someone else to help you do this especially if you are constantly updating your posts several times a day.

Roblox is also known for giving away free robux, tix or any other currency for a limited time. They will give these out on a special day and if you do not want to miss out on them because people are using them, then you should have just been using the free robux promo codes for ROBLOX already. These holds of the code can even be used as gifts among friends. There are very limited codes that they will give out though. If you want to be in line for one of these codes and still want to have fun, then you should always make sure that you do not use them too fast. This way, they will not release anymore codes and people will obviously lose out on having fun.
