The game includes a variety of different "power ups". The user reviews for each power up show the overall audience's rating of the power up at that point. Some power ups include the ability to turn on an area light, remove clouds from the screen, double all coin production, and create special blockades in which coins aimed directly at one end of a light stand will be destroyed before they reach it. The more powerful power ups also include "turbo bombs" which can be fired from the player's cannon.",

The game has received positive reviews from multiple independent publications, including TouchArcade who gave the title a rating of 4.5 stars out of 5. It has also been featured on the front page of the App Store in multiple regions where it is available for purchase including Canada, United States, United Kingdom and Australia. Reviews have praised the game for its addictive nature along with innovative and unique gameplay elements.",

Good game, needs some fixes. by Munya on 2019/04/06 16:12 It's a very fun game. I have been playing for years, and there are things that you shouldn't have to pay extra money for in the game, such as extra turns if they aren't already included. There are places that you can't craft an item that you don't have the coins to. If they made more places to go to as well as more items to craft, it would be a better game overall. The chat feature is also annoying sometimes. As soon as I open the app, it tells me there are people on the other end of the chat, and since I don't have any friends, I close out of it immediately. It really bugs me how players have different abilities than other players for some reason. I forgot the name of the third thing I wanted to say, but that's all for now. Thank you for reading!",

Coin master has been out for a few months now and is the first game of its kind and has had an overwhelmingly positive response. We here at TheGamesLovers thought that we would take a closer look at how this game works, what is needed to play, and what makes it so addicting.",

In March 2018, United Pixelworkers announced that in addition to adding new features and content to "Coins & Curses 2" such as a higher level cap and additional cards, they were also working on a PC version of the game titled "Coins & Curses Adventure". This title will be an "RPG style" adventure game based around a similar theme.",
