It's possible to use Roblox as a peephole into other people's accounts - this can be done by using third-party software like PeepHole to install backdoor with root privileges for the account. Because it has such wide availability on each device, it is an easy way for hackers to compromise multiple devices in one go. It was reported that 2-3 billion public profiles were compromised in Brazil alone in June 2018 and April 2018!

In 2014, ROBLOX took the block system offline due to an exploit that allowed users to convert infinite amounts of blocks into real currency. They eventually brought it back online after fixing the exploit.

In December 2011, a lawsuit was filed against Roblox for copyright infringement, in which ROBLOX is accused of copying the entire codebase and game assets of "Infinity: The Quest to the End of the Universe". A cease and desist was also filed against ROBLOX in September 2012 by a head developer from the website Games Done Quick for using their copyrighted content without permission.

In August 2016, Roblox announced that they would be offering their service in China. ROBLOX later confirmed that they started to accept users from China in September 2017, during beta testing.[62] Due to Roblox's popularity on Steam Greenlight, they were removed from the platform as of October 17th, 2014.

I just wish we could have stuff like spoons on roblox and we could make furniture like tables and chairs or a cabinet and some chairs for our avatar. Also I want to be able to make my own game make it like Roblox survival! Please please please update roblox so that we can have stuff like spoons and a table and chairs for our avatar thank you. When there is an update that takes away all the content from one of the games I played, it's sad because I enjoyed it... And other people enjoyed it too.
