"This is one of my favorite games because of the different levels and how easily it takes all my free time. It would be cool if there were different games you could play with friends online and offline. Also, I would be better off if you could actually get coins without spending your real money on them through in-app purchases or by downloading another game that requires real money.";

Buyer's Beware by Meelzamax on 2018/11/07 07:26 This game starts out amazing, and if you spend money or wait months to progress. But the developers are greedy, want you to spend a lot of your time in the game or spend actual cash. The problem is both I think. One day I was playing it was a normal day and out of nowhere my kingdom got deleted for no reason at all. I emailed them and they said that someone else had reported someone with my name, but there was only one other person with my name on this planet playing this game. Now most people would say that I could just make another account... good luck. The process takes like a week and you have to start over from square one. Once you do, if you're at an advanced level, the game is set up so that you will no longer play it...in other words they are banning you because people will eventually find a way to cheat as there is no spam filter and they delete any account with more than one person on it. Either spend lots of cash or just don't get into this game!";

The game was also featured on the front page of the App Store in multiple regions including Canada, United States, United Kingdom and Australia. A spin-off title for iOS devices called "Coin Master: Dig Deep" has been released by United Pixelworkers and is available to play online on any compatible browser or directly through an app designed for iPad, iPhone and iPod Touch. This title was released as a limited time premium version with more in-app purchases which included more levels and content. The PC version of this title has also been released on Steam and is available to download directly from within the Steam application or from its store page which can be found here. This game is similar to "Coins & Curses 2" except that it includes more in-game content.";

Won't let me watch a video by Halypony on 2017/11/24 22:17 This game is great. It's not the same as before because the coin and gem system but it's still fun to play and a good time waster. It's just that when I try to watch a video to get coins or gems, the ad never plays! I'll keep trying though because I love this game so much.";
