I love Roblox, but there are some things that I don't like. My favorite aspects of Roblox are that it's fun and easy to play with my friends online, and it has funny ways of making you laugh or feeling nervous. My least favorite aspect is that if you use your neighbor's computer (turn it on/jack in) you can't change your username or skin. Also, there are players who break laws such as swear words, so they get banned from Roblox for doing so. I don't think Roblox should be edited at all, but just taken off.

The company itself has not ever made such uses of VR technology but have given their developers access to the SDK in order to promote VR technology. The company is planning on releasing an SDK for Sony's Project Morpheus and Oculus Rift at some point in the future, although no dates have been officially announced. However, ROBLOX has been criticized due to their unusual (less than the minimum) end user license agreement. Roblox has released a new version of its app called Ava (ROBLOX's Mobile Application). See above section for more details.

As of February 2018, ROBLOX has over 62 million users. [51] In 2017, ROBLOX added a new currency called "Tix". These Tix are used to buy Tickets at the store; the more you spend, the better prizes you get. These tickets can be spent on exclusive items such as Christmas hats. [52]
