Roblox uses multiple methods of advertising. They first started advertising on websites like Nickelodeon, but they have moved to focusing on social media sites like Facebook and Twitter.[66] Roblox also primarily advertises at gaming conventions such as E3 and Minecon. Roblox has an official YouTube channel on which they occasionally stream live events called "Developer Live", where Roblox employees give sneak peeks of upcoming features.[67] They have also recently released a list of YouTubers that are apart of their Developer Program called the "Roblox Ambassador Program". These YouTubers are able to test new features in Roblox before anyone else with the exception of Google employees.

Roblox claims that she was fired because they found out she was using her workplace computer to dig up personal information about her co-workers and this affected her job performance. However, she claims that the only reason they are saying this is because they found out about her blog post and didn't want the bad publicity. Roblox also provided an email that Chris sent to HR in May of 2017 regarding erratic hours. She says that it was just a single complaint and wasn't fired for it.

On March 3, 2008, ROBLOX released a new logo for the website after receiving much criticism from its community for changing it in late 2007. The new logo removed black completely from the original logo and changed the font to match that of RISC OS. The new logo was the same as it was before, but added a small "2" at the bottom of the logo.

ROBLOX first came out in September 2006 when released the first version of their game Roblox Studio (similar to Scratch). This was the original creator of ROBLOX and was developed by Jason "Akile" Akilecz (JAMASOF) from October 19 to November 5. This is the first fully 3D program for ROBLOX. The original name was "Roblox", but it was changed due to a copyright lawsuit. The name was changed to "FunRoblox", and in 2008 the "Fun" part was dropped to make it simply Roblox.

roblox is one of the most popular games out there on the internet for people aged 7-12, and it is pretty much all about building things with blocks in a 3D world. This means it is a game that requires strategy, thinking outside the box and creativity in order to have a hope at succeeding. roblox has been around for 7 years and has over 80 million monthly active users, making it one of the most popular games out there in terms of both quality and quantity.
