On July 3rd, 2018, ROBLOX announced that they were no longer allowing people to make custom models for their games. Instead, they would be allowing users to build blocky models that could not be edited at all. They stated that this would prevent the creation of custom models and save money by preventing expensive data transfers.[22] The change was made in order to clean up the game because custom models complicates the "Roblox experience" in some cases.

On January 24th, 2019, ROBLOX released a plan for their future development. The main goal is to separate ROBLOX from its animation engine and make it its own game platform.[107] This will greatly cut down on the amount of time it takes to develop games for the site.

I have always had problems with this game and there are many other people who do too. Like the fact that you can't change your name when your in a group with a lot of people and it makes me very mad when I can't change it because I feel like I am stuck with the name that I have. This also happens when one of my friends gets on my head and they change their name to a bad word which makes me really mad because if someone else was in the group with us then they would be able to see that bad word in big letters. It also makes me mad for a different reason because I really like my name. Anyway, I hope these bugs get fixed in ROBLOX or the next update of ROBLOX.

ROBLOX has been accused of copyright infringement multiple times by numerous people, most notably after the company decided to include music of band Crystal Castles in their popular game The Longest Day.

Here is the link to MyRoblox. You can also find the very informative "Reddit Facts" page on the Roblox Help site as well, although it is no longer up-to-date. EDIT: This also applies to other games like Robokill, Minecraft and Terraria. Just remember where you find out important information. ;) Last edited by alyssa2789; 05-31-2019 at 05:44 AM .
