I am writing about Roblox today because I am fairly new to the game and am trying to get used to it. I have had Roblox for about 6 months now, and I am sort of over it. However, I really love the game. It is a creative game where you can design an avatar and have a house to decorate. I just wanted to write this because I know there are a lot of people who have been searching for my story on Roblox. Everyone has their own opinions on the game, but as soon as I found out that my parents were coming to visit me on Friday, I found out that they were going to be seeing where I spend most of my time playing games online: namely <https://www.roblox.com/>. I was very and extremely shocked that I hadn't clicked on the site before this - it means I really could have been playing the game for a lot longer. A lot of my friends have played this game and now I'm starting to understand why they say it's such an addicting game! I am writing about Roblox today because I am fairly new to the game and am trying to get used to it.

On November 24th 2018, the game was reuploaded on ROBLOX and was named simply "Anthem". It is the exact same game as before with no changes or improvements.[90] ROBLOX 3D: On December 23rd 2018, ROBLOX released a new version of their website called "Roblox 3D". The company claimed that it was meant to be an improved version of their 2014 release. The 3D design features many new animations and tools for users to create models. They also put a lot of time into making it look more modern.

On March 3, 2008, ROBLOX released a new logo for the website after receiving much criticism from its community for changing it in late 2007. The new logo removed black completely from the original logo and changed the font to match that of RISC OS. The new logo was the same as it was before, but added a small "2" at the bottom of the logo.

5. Roblox should have a choice where we can only friend other users based on gender and age. 6. There are too many DLC's that do not allow you to play the game fully without buying them. 7. There needs to be an authority on the game just like there is one for Steam that will give out reports about inappropriate content as well as any other updates and problems that happen within the game such as glitches and server problems.
