I'm almost broke by Don't get this game on 2019/03/25 18:10 You need to earn coins from spinning the wheel and games but it takes up all of your energy and then gives you 1 coin per fish. So you have to buy more energy with the coins you've already earned just so you can earn more coins. How many levels are there? Who knows because it gives you no way of knowing besides having to look at every level on your own. I've played this game for a few months now and I'm already broke. I've had to start putting coins inside my code so the game will pay out at the end of the month/week because otherwise you won't make it. How do I know? Because after I put in my code, the game pays me what it owes me but then takes money from me when it's trying to be nice and give me a level up bonus or an extra spin or whatever. If you want to spend money then don't play this game because there is no other way to get money easily without spending your own rubies/coins on extra energy. I also don't know how people are buying the "Chat with friends" thing. I have never gotten it to work and I have several friends who also play. So it makes you spend money just to talk to your friends even though you can't even talk to them for free using the in-game chat.",

On August 1, 2016 the game was removed from the Apple App Store. The game's developer said that "Coin Master" was being re-released on Apple devices in 2017 but there has been no further mention of this from Moon Active as of November 2018.",

In 2014 Moon Active released Coin Master: Puss in Boots "(Kasegi 2: Bukini no Tane)" for iOS as a free-to-play app. This version of the game contains in-app purchases such as power ups and coins. It also contains ads and micro transactions which can be removed by paying \$3.99 for an ad-free version of the game. The user review for Coin Master: Puss in Boots is composed of 3 out of 5 stars, with a user rating of 4 out of 5 stars (out of 1 vote).",

In January 2016, Moon Active launched a Kickstarter campaign to help fund the development of Coin Master 2 on mobile platforms. The developers of this version released an alpha version of Coin Master 2 for Android devices in December 2016. This version didn't reach beta quality however as it was quickly discontinued only three months after launch due to poor user responses regarding bugs and graphic issues. An update was provided in early 2017 which included a new tablet version of Coin Master 2.0 but this version also never went to beta. As of August 2018, Moon Active has removed all of its previous versions from the Google Play Store and App Store for unknown reasons.",

On August 23, 2018, Moon Active released Coin Master: Puss in Boots "(Kasegi 2: Bukini no Tane)" for Android as a free app (it is not available on iOS). This "Coin Master" title features an updated version of the popular video game "Puss in Boots". The game was released in Japan initially as part of Moon Active's "Coin Masters" series. However, this version of the game was never released outside Japan. This version contains microtransactions which can be removed by paying \$4.99 for an ad-free version. The user review for Coin Master: Puss in Boots is composed of 1.0 out of 5 stars (out of 1 vote) from 1 user, with a user rating of 2.0 out of 5 stars (out of 3 votes).",
