ROBLOX was the first mainstream online game that allowed players to make a profile, interact with others, earn virtual money and characters through gameplay, and even have fun by creating their own levels and games. ROBLOX is the first online game to have players create their own virtual characters that live out an entire world just like in their actual life. [113] ROBLOX is ranked 15th in the world among "Game World or App Market" websites according to Alexa stats. [114] ROBLOX is ranked 2nd in the "Top most visited websites" by Alexa stats list. [115]

On August 4th 2018, it was revealed that many well known ROBLOX users made fake accounts in order to copy their friends' progress. These fake accounts had the same username and picture as the original account owner but had no friends. Once these fake accounts gained a good amount of currency, they would join a game then buy the maximum amount of slots possible. The real account owner would notice that their account was missing and look at the fake profile's profile. While there were no friends, there were tons of transactions for items such as a \$100-\$150 purchase for 5000 robux. This could have been used to raise their reputation and potentially, make them more money.

On November 2nd, 2018, ROBLOX announced that the company is looking into implementing state-of-the-art anti-cheat technology. This was made to reduce the chances of "boters" putting random objects in games that don't belong there or making designs that look like they can be through a video editor. The company also stated that if there are any issues with their anti-cheat software, they will let everyone know as soon as possible.[24]
