The free robux script will integrate and use the features of Facebook for comments, sharing and comment posting. You will not have to write any code since the interface provided is done using HTML5 and CSS3 which allows for web developers to build websites that can be programmed using Javascript and CSS3 formatting. This means that not only would it be easy for a person to use the free robux script but also programmatic skills are not required.

In a response, Roblox stated that the employee who did this was dismissed after a thorough investigation and that they are committed to making improvements to their workplace environment. Chris Misner also stated that she suffered retaliation from other Roblox employees for contacting the media and posting about her experiences with the company.

On September 13, 2016, ROBLOX launched its tenth birthday party along with an event called BLOXtober. The purpose of this annual event is to celebrate ROBLOX's birthday and give players badges for completing The Admin's tasks every day until October 15th. The badge is called BLOXtagger and can be worn on your profile for the year. The tasks were also modified to let you earn the badges by simply logging in every day.

If you do not already have a badge, then you will gain one once you have logged in every day for two days consecutively. At the end of BLOXtober, ROBLOX held a contest called RoblXtheRave, where people were given a chance to win a large sum of money in cash by answering trivia questions that were asked throughout October 11th-13th.

The main reason for this update was to make ROBLOX a lot more social, as at the time the website only had game-based features. Also, players can now buy items (e.g., skins & backgrounds) with in-game currency and have them delivered to their homes.
