On September 30, 2012 ROBLOX Studio was released. This app allowed users to develop games using their tablet devices as well as their computer. Builders Club was also released around this time; however it cost 10 ROBUX to join Builders Club until March 2013 when the price was raised from 10 ROBUX to 100 ROBUX per month.

Most YouTube videos will give you a link that will provide you with a free Robux reward. The amount depends on how many views the video has and the number of subscribers the user has. For example, if an account has over 1 million subscribers, they'll give an extra 2,000 robux for any views that would put them over 10,000,000 views; however this only applies before rewards are scaled down.

Rated 4 out of 5 by Anonymous from Great! They make you have a membership, but it's free. I like that you can build and edit your own characters. You can also play others' custom games. You can also make your own games if you want Rated 4 out of 5 by Anonymous from Great! It has many things to do and it is definitely worth trying out! Rated 1 out of 5 by Anonymous from Horrible The game is worthless because of all the scamming on the app and its updates. Rated 5 out of 5 by Anonymous from I love it This is a great game that would keep you occupied.

If you are a new player to Roblox then I would definitely recommend this game. This is because the game offers a lot of different features, and it even allows you to earn points from playing and completing different quests.

In July 2018, Roblox had allegedly banned several high-profile creators due to the fact they made violent games. Although Roblox claims users were banned "due to improper behaviour" nothing has been proven yet. The situation is occurring in many forums and websites. In July 2018, ROBLOX put out a statement saying that they did not ban any creators, but instead were involved in a legal dispute with the people who claimed to have been banned.[82] They later said that anyone who was banned for making offensive content was "part of an organized effort by bad actors to scam our users. We have no tolerance for this behavior and we're doing everything we can to protect our community." [83]
