Roblox has been criticized for the release of their "2018 Summer Update" which featured new clothing items and accessories. The update was released on August 28, 2018, and it caused some of these items to be very hard to find. This resulted in many of Roblox's users spending a lot of money on the platform in order to obtain these new items.

In order to get the best value for your money, it is essential that you read this article on how to get free robux for roblox. There are a lot of methods out there but I have listed the best ones and you will get a lot of value for your money if you choose the right generator.

On January 12th 2019 RoBoX Studios uploaded a video of them waving in front of cameras. The description of the video said "Moped Wave" and there was a picture of the thumbnail saying "Moped Wave". Fans thought it was an advertisement for one of potential future projects. A few days later they uploaded a second video called "RoBoX Studios". This time they were counting to 12 in front of cameras with different colored backgrounds. On January 22nd 2019, after over a month, they have uploaded another video titled "RōBux". The description teased about a possible RōBux 2, which is a mini game in ROBLOX which is cash oriented. On February 18th 2019, they have posted another video titled "RSK", which is short for ROBLOX Studio Kit. This video showed three new projects that were planned to be released with tips on how to create them. On February 19th 2019, they had uploaded yet another video titled "ROBUX". This was a video where it showed a projected page about ROBLOX and what people play. The description read "ROBLOX has more than 200 million users who love playing Roblox games! Which is why next week we will be releasing RSK - the new Roblox Studio kit! It will feature tons of cool features and tools you can use to make awesome 3d games. Keep an eye out for RSK next week. The post was then deleted, then the video was deleted, likely to stop rumors and speculation of a new studio kit.[48] On February 26th 2019, they released RSK to the public under build mode.[49]

The next time you log into your Roblox account, it is recommended that you take a moment and really think about what information and/or games can be accessed by the hacker. If this is not enough, start using anti-virus software to look over your computer for any unauthorized programs installed on the system. Never share personal information with any website that requires it, especially when it contains your email address.

The inventory of each user cannot be accessed by anyone else. If you want to find out what a piece of furniture is for, you are going to have to purchase it from your inventory. There is no sharing of items between users; they can only be found in your own private stash.
