In 2011 Mike Miller reconnected with his former business partner Eric Holm, and together they decided to revive and develop Coin Master. They founded InXile Entertainment for that purpose. In February 2013, additional team members came on board including: game designer John Alvarado, artist Brian Berretta (art director), artist David Durin (lead artist), artist Michelle Kim (art assistant), composer Marco Beltrami and sound designer Scott Morgan. They launched a Kickstarter campaign on March 27, 2013 to fund the game, which was released on September 13, 2014.",

The graphics in Coin master are relatively basic, but they are bright and colorful. The game is based on the concept of a treasure chest, which is where you keep your coins. The coin master himself is a bearded pirate who is dressed in traditional pirate attire, and his second in command (who helps you collect gems) is an orange fish wearing a top hat and a monocle. Another big feature of the game is that you have your very own pet fish which follows you around while helping to collect coins for you - these pets can be unlocked by reaching certain levels or using gems to take care of them. Their names are Chippy, Daffy, and Popeye - the latter two can be different depending on which pet you have unlocked.",

The game averages over 1,250 reviews with a rating between 4.5 stars to 4.8 stars across all platforms according to Google Play's and Apple's App Stores. The game's graphics are generally of an attractive and colorful nature. The characters featured in the game, while themed around coins, have been described as similar to "a kid's metal-head toys", with unusual characteristics that match the gameplay. The packaging of individual coin cards have also been described as "retro" in design.",

In 2015 Moon Active released Coin Master: Puss in Boots "(Kasegi 2: Bukimi no Tane)" for iOS as a paid app (it is not available on Android). This "Coin Master" title features characters and settings from DreamWorks Animation's hit movie "Puss in Boots". This version of the game is free to play and offers power ups and missions. In addition to updated graphics, it also includes new enemies such as sheep, bees and a wolf who jumps around trying to knock coins out of the air. The game has received a tiered rating of 4.8 out of 5 stars (out of 7 votes), with a user review stating that "Coin Master is a great game, well worth the full price" while describing it as "The original coin master (with) a few twists".",

Good but... by minecraftgirl\_1234 on 2018/02/18 22:32 This game is great i love it but there are WAYYYY to many ads and the coins aren't cheap at all. I don't mind watching ads for getting coins and what not but I don't do it all the time like you guys want me to. I only have a small allowance which means a lot of my money goes to starving myself on this game. And if you get an ad like once every hour just be thankful for what you get because 90% of phone apps are like that or even worse. Anyways it is a great game and I love it but there are some glitches. Like when I'm clearing the road, I have to tap on the broom to be able to sweep and keep tapping until it unlocks which causes me to lose a lot of lives. Also you could fix one of the new updates where coins and gems and tickets go away sometimes. Sometimes they don't even go away if you got them from one of the game features. And those features are part of getting coins and gems. What about lucky tickets? And if you have this problem too then just tap until it unlocks then get off for like 5 minutes or so then re-open the game. That usually fixes it. Also please fix the issue with the ticket counter. I don't know what it is but I've been watching a lot of videos and forums and they say that if your game is running slow then you should get rid of the "Greatest Hits" feature but you don't get any more coins or like any more credit for using that feature. It's just a wasted ability.",
