Weebly Pages later went on to become Pikazo. ROBLOX is the first game that has allowed players to have voice chat. [121] ROBLOX is the first online game that allowed players to invite others into their world and even allow them to build things like they used to in PC games. [122] The next games that would allow users to invite others into their worlds were Habbo Hotel where they had their FriendBook and later on also added a FriendChat system in December of 2011, Club Penguin where you could invite fellow penguins into your world, and Mario8 since 2014. How about having a system where you can trade other players items and for their items you can trade them.. and also it would be better if someone was able to get ban for inappropriate activity but at least it would give them an option to choose from and no one should be allowed to use excessive exp which is currently going very bad in the game... How about aswell have a better chat message system as well as on roblox the roleplay activity is pretty dead....

In July 2012, ROBLOX released a list of their top 100 games with the most concurrent players at any one time. The list features a variety of games such as "Rage Place", "Create the Universe 2", and "Survival Games: Mine". The game with the highest number of concurrent players at the time was "Mineblox", which had over 10,000 players on it at once.

I am not a Minecraft addict, but I do enjoy playing that game. However, that is only because my friends and I play it together. Not because of the millions of dollars or diamonds you can get for free on Roblox. People are obsessed with Roblox; my Facebook account was filled with friends who played Minecraft as if they were addicted to crack. They would constantly post pictures about their new lifesize cardboard builds they worked on at home; taking ages-long breaks between each video to watch more videos of minecraft. We've all had friends who were that addicted to Roblox in our time, but I have never met one like Sinead who was "deeply miserable" because she was deprived of playing it. That was always the case whenever anyone mentioned it, I'm sure; parents would frequently ask me if and how I managed to get my grades, and teachers would always ask me if we had any homework. Sometimes they'd even assign us essays to write about our time on Roblox; even though a few months before everyone stopped doing them unless they were mandatory.

In February 2013, Roblox was in violation of Terms of Service that required them to have a minimum age requirement for players.[72] In December 2016, ROBLOX temporarily suspended monetizing accounts and purchases of game currency within their website after it was discovered that many users had been cheated out of money. It is known that they worked with third-party vendors to purchase a limited amount of Robux for specific accounts.[73]
