Love the game but... by jenny1995 on 2018/02/26 21:28 I have been playing this game for a while now and I have come up with a few things that need to be changed. For one, how many times can you run out of troops? You can go through a whole hour without seeing any troops on your screen and then suddenly you will lose all of them! It really needs to be fixed cause it's so frustrating especially when you are in the middle of a battle! Another thing is that after 15 spins, the counter stops at 3 and if you don't spin again it stays there forever until you do spin again. It's too difficult to get enough coins for 15 spins and when that happens it makes me really upset because there are a lot of things I want to buy but I don't have the coins for them. It's just REALLY annoying. If someone was able to fix this, then it would be great!",

I downloaded the Coin Master Hack and it saved me time. Coin Master Hack helped me get coins, cards and gems to my collection within the app. No longer do I spend hours digging for gems, but now I just tap them in a timely manner.",

The graphics in Coin master are relatively basic, but they are bright and colorful. The game is based on the concept of a treasure chest, which is where you keep your coins. The coin master himself is a bearded pirate who is dressed in traditional pirate attire, and his second in command (who helps you collect gems) is an orange fish wearing a top hat and a monocle. Another big feature of the game is that you have your very own pet fish which follows you around while helping to collect coins for you - these pets can be unlocked by reaching certain levels or using gems to take care of them. Their names are Chippy, Daffy, and Popeye - the latter two can be different depending on which pet you have unlocked.",

In January 2017 Moon Active announced that they had signed an agreement with Netflix to develop a free to play mobile version of Coin Master for Android and iOS devices. The game was later released in beta form as of February 2018. It is titled "Coin Master: Poke Map" and is similar to other games developed by Moon Active such as Poke Monsters World Tour. This version of the game allows players to view the world around them (using real location coordinates) and find loot based on their current location within the game. Collectible items such as equipment, potions and rare drops can also be found.",
