The game has a number of features that help users to create their own games. Users can mine for materials in the sandbox and use them in their own games, or they can buy materials from other users in the Marketplace. The menu includes a number of categories, such as Buildings, Boxes, Characters and Game Objects. Users can tick these categories and use the menu to search for whatever they need.

Some other popular tools for hacking Roblox are involved in using a console to execute commands on another user's account; also, there are commands like .rm in which the user can delete other accounts. One of the common ways that hackers can hack Roblox is by using a proxy service. A proxy server is an intermediary server that acts as an agent between two network entities. A hacker can use a proxy program in order to reach another user's information. When another user logs onto their account using this program, the main computer uses the proxy server first before it accesses Roblox. This hacking method is typically used by spammers to hack Roblox accounts and obtain personal information such as passwords and usernames that are used for cyberbullying. One of the more advanced techniques of hacking Roblox is through phishing. Phishing involves sending an email that is designed to look like it is coming from a trusted source. The email will ask for the users' login credentials or ask them to click on something else like a link or an attachment. If the user clicks on the link, they will be redirected to a fake website that looks like something they have visited before. Hackers can use this method to access other's accounts by using another person's credentials.

Roblox Suggestions (Steam Community) - This is a helpful site where you can submit suggestions to the Roblox administrators. If there's anything you'd like to see changed or updated, this is where you should post your suggestion. People are constantly submitting suggestions on this page and it can be easy to miss. You'll also receive notifications if anyone liked or commented on your suggestion, so it's easy to know if people were interested in what you posted.

- The idea of having a game where you can make your own avatar and decorate your own house, it's pretty cool but it makes the game even more repetitive.

ROBLOX has created a number of recurring events over the years. On October 23, 2012 Robotcrab had announced a new way for Roblox users to make money by selling virtual items in the Roblox catalog: the "Builders Club". Players use Roblox's in-game currency, called ROBUX, to purchase items which they can sell to other players.
