Overall I think that the app is pretty great and there are so many possibilities waiting to be done in the future. I hope this review was helpful to you and that you have gotten some information from this novel review. If your mobile is upside down click on the top right corner of your phone then on settings and then uncheck auto rotate.

- No clear guidelines as to how the game works. There is no tutorial on how to build things or what some items do.

Some people say that Robux takes too long to obtain in free roam, but with the new update, Roblox changed that by either allowing players to win a certain amount of Robux while playing a game or earn them by watching videos.

This is not an open world game, each world contains its own mini-map that shows the player where he or she can go and where they cannot go. No one will know you're there if you stay hidden. This means that if you don't want someone to find something in your inventory, you have a location to hide it.

What I do is take advantage of the events and plan out everything that I want. Once the event is over, I will just go to the Marketplace and wait for it to load. I will then go to the Marketplace and set my price at the lowest price that it can buy for a weapon, then I will wait for a few days. During this time frame, I have been able to sell everything that I have in order to get free robux. And also, you are able to see how much time the event would take depending on how many people enter.
