Great Game by Brianna13131312 on 2018/07/25 01:10 I personally love this game because you get rewarded better as you play the game. It's fun and very addicting and also they update it every once in awhile so it's always fresh. One thing I wish they did was allow more opportunities to get coins for free instead of going to a shop and buying coins with money. It would be a lot more fun if they added mini games that gave you a chance to win free coins or even a small lottery that you could enter. I think it would add more fun to the game. Other than that this is a great game and I highly recommend getting it if you haven't played it already."

Too many ads by Rachael Bajo on 2018/04/12 16:31 This game is very fun and I will have to admit that the game play is very well executed, but the amount of ads is way too much and you guys are not helping the problem at all. The ads do not get removed from your screen and you have to close them out just to use your items or do something. They also sometimes pop up when I don't want them to like before I open a shop. It is very annoying because you can't even go back without closing it out which ruins my plan every time. Another thing is that you have to wait for so long. You have to wait hours to even complete something. I know this is supposed to be some kind of strategy game but all it really does is frustrate the players because they can't even move forward because they had a bad streak of luck."

In March 2017 Moon Active announced that a version of Coin Master was available for download on the Samsung Gear VR virtual reality headset. This version of the game was developed in partnership with Samsung and is based on their hardware (Samsung Galaxy). The game's description states that it is a "virtual reality experience" and that it allows users to "take full control of the adventure".

The rules are simple: 1) Start or join an existing chain with two coins in it (a small number). 2) When you have a chance to flip, flip your coin to make it land heads or tails. 3) If you flip your coin and it lands on heads, your chain will add one more coin. If you flip your coin and it lands on tails, your chain will end with a space in between. 4) Keep flipping until the chain is empty or done!"

On January 10, 2018 GamesBeat published an article that mentioned a new release titled "Coin Master: Poke Map" was being developed by United Pixelworkers for the iPhone. The game is available for iOS devices in beta form as of February 2018 and is free to download from the App Store. This title is an alternate version of "Coin Master" where players can view the world around them (using real location coordinates) and find loot based on their current location within the game. It also includes a newspaper titled "Coins & Curses Adventure" which is about "Coins & Curses Adventures". An article on the website says that the game was created to satisfy the desire of players for a Pokemon Go style experience with "Coin Master: Dig Deep".
