The Roblox UI has a webcam in the bottom right corner, and many players have found that other players have used this to take pictures of them or record them without permission. This was also reported on an academic blog site.

On March 3, 2008, ROBLOX released a new logo for the website after receiving much criticism from its community for changing it in late 2007. The new logo removed black completely from the original logo and changed the font to match that of RISC OS. The new logo was the same as it was before, but added a small "2" at the bottom of the logo.

On July 27th, 2018, ROBLOX announced that they were going to be having an "open beta" of a new in-game currency system that would allow users to buy and sell virtual currency. This feature was added to the site in 2015, but this was the first time that it was open to everyone. This new system came with a "Queueing" system similar to YouTube's order form, which many game creators saw as useful in saving time from waiting for transactions manually. Users can still trade with each other if they wish to do so.[23]

My parents really like Roblox and they think it's a great way for me to make friends. They think it's good that I'm able to talk to other people online, meet new people and talk to them offline as well. The game is very social, so they like it because I've made many great friends through playing Roblox. I really enjoy Roblox because it has helped me develop a lot of social skills, and it's also a game where you get to meet new people from all around the world. I will continue playing Roblox because it gives me the opportunity to have fun and make new friends.
