On January 10, 2018 GamesBeat published an article that mentioned a new release titled "Coin Master: Poke Map" was being developed by United Pixelworkers for the iPhone. The game is available for iOS devices in beta form as of February 2018 and is free to download from the App Store. This title is an alternate version of "Coin Master" where players can view the world around them (using real location coordinates) and find loot based on their current location within the game. It also includes a newspaper titled "Coins & Curses Adventure" which is about "Coins & Curses Adventures". An article on the website says that the game was created to satisfy the desire of players for a Pokemon Go style experience with "Coin Master: Dig Deep".

Good game but needs improvement by Blazinjoe on 2017/11/01 00:52 The idea for this game is great! It's really fun and all but there's a few things that need to be fixed. First off, you guys should make it so that when someone asks for a gift, the person who asked the question can see who is sending them gifts. I know this sounds kinda petty but I've been on here a while and have had this issue more than once and it's just plain annoying to have people leave you hanging by not giving you what you asked for when they accept the request. There's also something in game chat that needs to be fixed. In game chat lags way too much and it's really annoying. And lastly, please make it so people can say "thank you" to each other when they receive gifts or spins etc... I personally love this app and I would rate it 5 stars but these things should be fixed.

In 2016, Moon Active released Coin Master: Space Invaders "(Kasegi 3: Aratanaru Jettsuu)" for iOS as a paid app (it is not available on Android). This "Coin Master" title features an updated version of the popular video game "Space Invaders". The game was released in Japan initially as part of Moon Active's "Coin Masters" series. However, this version of the game was never released outside Japan. This version contains micro transactions that can be removed by paying \$4.99 for an ad-free version. The user review for Coin Master: Space Invaders is composed of 4.5 out of 5 stars (out of 1 vote), with a user rating of 3 out of 5 stars (out of 1 vote).

On August 23, 2018, Moon Active released Coin Master: Puss in Boots "(Kasegi 2: Bukimi no Tane)" for Android as a free app (it is not available on iOS). Ads by Abubaker94 on 2018/02/19 22:44 I love this game but with the way ads are it seriously is unplayable. If you can get pass that it is a good game but the ads can be super annoying and I kind of regret getting this app when they made it. It's you get him for a couple minutes its gone, and it seems like they make more things per ad instead of making a easier lower level. I don't get it but you can have a good time while playing this game.
