I love Roblox, but there are some things that I don't like. My favorite aspects of Roblox are that it's fun and easy to play with my friends online, and it has funny ways of making you laugh or feeling nervous. My least favorite aspect is that if you use your neighbor's computer (turn it on/jack in) you can't change your username or skin. Also, there are players who break laws such as swear words, so they get banned from Roblox for doing so. I don't think Roblox should be edited at all, but just taken off.

In January 2015, the official Roblox Studio 2 was released on Steam. It allowed for cross-platform development with Windows 10. However, any existing games made with the previous version (R-Engine) will not work with this new version since it uses a completely different engine.

On November 7, 2017, Roblox released their first real let's play channel, but it only lasted a couple of months before Roblox cancelled its plans for let's play channels. It stars RandomPlayer as he plays a wide variety of games on ROBLOX, including many popular games such as Angry Birds and Zombieland.

The founder of ROBLOX is David Baszucki as a 13-year-old boy in 1996. He was a freshman at Palo Alto High School in Palo Alto, California and had been working on a computer program that was similar to ROBLOX called "Pyxis". He worked with his friend Owen Hill to create new ideas for the program until it became possible for others to play the game without downloading any additional software.

5. Roblox should have a choice where we can only friend other users based on gender and age. 6. There are too many DLC's that do not allow you to play the game fully without buying them. 7. There needs to be an authority on the game just like there is one for Steam that will give out reports about inappropriate content as well as any other updates and problems that happen within the game such as glitches and server problems.
