I love this game it is amazing! I like the way you can make friends easily with nicknames and when you try to play a game you dont have access to there are always glitches, but i LOVE the idea of making the games harder by having three stars or more (like an adult version of warcraft) but it needs to be stopped from players trying to get a lot of coins for their accounts, because there are some that have 100s of dollars for their accounts and they re selling them..and also about the prices, i put two dollars on roblox i cannot use it because all transactions done here is done in dollars.

-I would love if roblox had a marketplace because it could exchange items and in roblox the avatar is still the same as it was on a website but i wish there were live avatars in my profile

"Robloxian life" has actually changed how people view games now. People used to spend hours and hours in games without even noticing that time has passed because they were involved with the game's world. Suddenly, they realize their time is running out and that no one is helping them out for example.

Game Guidelines: On March 23rd 2017, ROBLOX announced changes to its Terms of Service and Privacy Policy regarding the game guidelines for making games on the website. The company has added new restrictions that force creators to only make certain kinds of games.[80] To be more specific, Roblox has forbidden developers from making violent and offensive content such as school shootings or terrorism. Instead, players can only make games that are appropriate for kids.[81]

3. Due to the fact that there is no way to get more revenue from robux, there needs to be a way for people who have robux on their account that they cannot withdraw. 4. The rule that is stated to be against ROBLOX's rules is not an actual rule but it is a suggestion to stop inappropriate content.

Hacking Roblox is not only limited to hacking a person's account by using someone else's information. There are also methods of hacking Roblox accounts that do not involve stealing another person's information. One of the more simple ways of hacking Roblox accounts is through DDoS attacks. An attacker uses a botnet and sends out requests for data on the target's server, causing it to become overwhelmed and crash. This can be done to any website, including Roblox.
