Best Game Ever by Mr.QuackMcWack on 2018/05/29 03:13 This game is so much easier to play than the other games I've played. There aren't many glitches, and it doesn't take up so much space. It could use some more decorations but it is still a fun game to play, especially when you are bored and have nothing else to do, or when you need something to distract you from your homework or other things you need to do in life. It is a great free way of making people happier with the challenges this game provides.",

Coin Master was generally received well by reviewers. Some praised the concept, artwork and its ability to provide both entertainment and nostalgia. Joystiq referred to it as a "trippy looking game" in their review. This sentiment was echoed by Gametrailers who referred to it as "unique". Other critics felt it was too similar to other games, especially "Tetris" and its clones, which were described as being overplayed in general.",

Creative and challenging by Houshk on 2014/09/21 19:18 This game is challenging yet fun at the same time. The levels are creative and well designed. To me they are not frustrating as some other games that don't really go anywhere or have too many different options to choose from. I love this game a lot!",

Good game but... by mrsam27 on 2016/12/21 18:30 I like the game but there are WAY to many adds! I get them almost everyday and every time I die I get another add. There is no way to skip or turn off them if you want to play with out being annoyed. The guy in the ad that says pay \$5.00 a month and get rid of them is full of crap because I have been trying to find a way to stop getting them since my phone came out and it never worked. If it does when I get the new phone you can bet I'll be deleting this app!!!",
