How about having a system where you can trade other players items and for their items you can trade them.. and also it would be better if someone was able to get ban for inappropriate activity but at least it would give them an option to choose from and no one should be allowed to use excessive exp which is currently going very bad in the game... How about aswell have a better chat message system as well as on roblox the roleplay activity is pretty dead....

There are lots of bugs in this game and we need a way to report them so they can be fixed or can be added into a sticky post. There is not enough room to write here, too much! So what I am going to do is go over the bugs and glitches that are in roblox, then I will tell you how we can get them fixed or changed.

This section will provide an overview for the company's future prospects. This list is by no means complete and is subject to change. Roblox is ranked as the 5th biggest gaming website in the world. It has over 144 million monthly unique visitors (MAU), making it number 1 in total and within North America, Australia and New Zealand. The games on ROBLOX are free to play, while microtransactions can be purchased using Robux, which are acquired by playing the games or through a transaction system called "Builders Club". Since 2016, Roblox has been making more and more money every year and is currently valued at over \$1 billion. Its headquarters are located in San Mateo, CA.

Good for improving cognitive function. There are a lot of games on roblox that can actually help your child improve their cognitive function, such as games such as the "Maze" game which can increase their motor skills. This certainly makes it a better option than other games available, such as GTA 5!

This game has many bugs such as glitching which can happen at any time including in games. There is no way to report this glitch due to the fact that the button isn't there and you can only report it from the website. This is extremely annoying because you need to refresh the page and play all over again, but this usually happens when you are about to win.
